DETAILED ACTION

1. *This Office Action is responsive to applicants' amendment filed 2 August 2007 canceling all but the claims previously allowed in the prior office action.*

Response to Arguments

2. *Applicants have now cancelled claims 2, 3, and 8-24. Amended claims 1, and 4-7 were previously allowed over the prior art of record. Accordingly, the case is now in condition for allowance.*

Allowable Subject Matter

3. *Claims 1, and 4-7 are allowed over the prior art of record.*

Applicants are disclosing an emulator circuit consisting of a programmable logic device for emulating circuit portions, serialized/deserializer for providing data streams to input/output pins, and a cross point switch for routing data streams. This has been disclosed in the prior art of record.

While these elements are individually disclosed in the prior art, the prior art of record does not meet the conditions as suggested in MPEP section 2132, namely:

*"The identical invention must be shown in as complete detail as is contained in the ... claim." Richardson v. Suzuki Motor Co., 868 F.2d 1226, 1236, 9 USPQ2d 1913, 1920 (Fed. Cir. 1989). The elements must be arranged as required by the claim, but this is not an **ipsissimis verbis** test, i.e., identity of terminology is not required. *In re Bond*, 910 F.2d 831, 15 USPQ2d 1566 (Fed. Cir. 1990)."*

In particular, the prior art of record does not explicitly disclose the specific arrangement of system elements in the same combination as now required by amended independent claim 1 relating to a first programmable logic device configured to emulate a circuit portion with a serializer coupled to the pins, and a cross point switch routing first and second input/output pins including a deserializer configured to receive a data stream, and further in combination with a circuit partitioner synthesizing first and second circuit portions and configurer arranged to configure cross point switch routing. (See: specification pages 5-8, Fig. 2, for example) Dependent claims 4-7 are deemed allowable as depending either directly or indirectly from independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
